Let us show you how we can increase your occupancy without having to do a complete overhaul on your hotel and minimizing your costs to help your bottom line. The process is as simple as taking 50% of your rooms and put a full size refrigerator and microwave to satisfy the kitchen needs. That's All!

- No liquidated damages.
- No transfer fees.
- Low monthly fees, no franchise fees.
- Brand name with marketing resources.
- GDS with Inn Link.
- New Website with your property Included.
- Digital marketing to build online presence.

Try Conversion vs Renovation.

There is no need to do a complete renovation on your hotel when trying to increase your occupancy...simple conversions will keep your costs low and allow you to tap into the extended stay model where the demand is high.

When converting your hotel in to an extended stay model, you simply have to have a full size refrigerator and a microwave. It's really that simple. Here at *extend a suites* we will help you convert your hotel at minimal costs and have you ready to pick up your occupancy from 20-30% - Year around.
